# All Men Respect The Hudson

Has that fact impressed you?

There are no HUDSON critics. Mono hay other cars because they are disaper. Or because they are higher-he as enough to be unique. Or because

they are novel in some other respect. But all of these mon respect HUD-SONS. They respect the judgment of men who buy them. That'se ident everywhere.

## Note Its Buyers

About 95 per cent are experienced motorists. About 28 per cent have owned lingher priced cars.

They are motor-wise and fastidious. As a class they are men accustomed to the best. They are quality buyers who demand value. They don't care to pay for more excess or show. They want no passing fad. They are buying, in most part, for keeps:

There are multitudes of such men now. And since June 15-when this new model appeared they have bought over 5000 HUDSONS.

## They Are Right

These men are right.

The six-cylinder engine, with its con-

tinuous power, is the ultimate in motors.

The HUDSON type high speed, small bore, long stroke has become the universal standard in a Six.

Excess weight is crudity. There never was a stauncher car than the HUDSON. despite its lightness, which is unmatched in any 7-passenger Six.

No car carries more passengers. None has more needed room. None has more comfort, hixury, quality or class.

And none more beauty than this new model. It brings out the Yacht-Line body, the Lustrous finish, enameled leather upholstery, and many other final

If you buy a car in this class this season you are bound to want the HUDSON. You will not find a rival in sight of it. But you can't get a HUDSON, in all probability unless you order soon. The demand for this car is exceeding all ex-
